**Importance:** High

Hi Team,

Malibu, Hoopa Valley Cyanotoxins and Excide are the only Hot Topics for our Division. Please send me any updates and let me know if there's anything else we should include.

Thanks!

Tiimonie

Hello,

As you know the Administrator will be in Los Angeles and San Diego this Monday/Tuesday. As such we are looking for any regional "hot topic" issues. I've attached a document that was prepared in September. Can you please take a look and pick one or two issues that are the hottest within your program here in the Region (keeping in mind that she is in LA and SD). If picking something from the document can you please make sure its updated as I'm sure things have changed since it was put together in September.

If you don't see an issue in this document that you know is a hot issue, please add information or send along to me separately.

Niloufar, I know you're putting together some trucking information.

We are on very quick turnaround and will need this information by **COB today**.

Please let me know if you have any questions.

Best,

Nahal
